Washington, DC 20204

Dear Sir or Madam:

In accordance with the Food & Drug Cosmetic Act 21CFR Section 101.93, the statement(s) for dietary supplements listed below have been included as labeling for the following product:

**Dr. Art Ulene's Prescriptive Formulas™ / Eye Health Plus™**

Statements:

Formulated with Lutein and Grapeseed Extract to Support Eye Health and Promote Healthy Vision

Research shows that antioxidant nutrients can protect the delicate structures of the eye. To strengthen the eye's defense and protect its delicate structures, Dr. Art Ulene's Eye Health Plus™ contains some of nature's most powerful antioxidants, including the carotenoids lutein and zeaxanthin. These natural pigments are present in high concentrations in the healthy retina, but tend to decline with age. This formula provides a natural approach for maintaining healthy levels of these nutrients and promoting healthy visual function throughout life.

I certify that the information contained in this notice is complete and accurate and we have substantiation that these statements are truthful and not misleading.

Dave Brubaker  
CEO and President
